Where There's a Jam,
There's a Party!

TM

READ UP. PARTY DOWN.

JAM TOUCH LANGUAGE SELECTOR PIN

The language selector pin will walk you through your speaker's status, letting you know when it is: Ready to pair, paired, ignoring a call, ending a call, charging and powering off.

If you'd rather hear tones, simply use the included Language Selector Pin to toggle to the tone option.

www.jamaudio.com to explore translations in your language.

1. Press and hold the power button for 3 seconds to power on.
2. Once the speaker is on, turn it over.
3. Place the LSP in the language pin hole and toggle through until you reach your desired language or tone.

Note: The languages are loaded in the following order: English, Spanish, French, Portuguese, Tone, and then back to English.

The voice prompts will walk you through your speaker's status, telling you when it is: Ready to pair, paired, ignoring a call, ending a call, charging and powering off.

If you'd rather hear tones, simply use the included Language Selector Pin to toggle to the tone option.

Please visit www.jamaudio.com to explore translations in your language.

HEY. HAVE WE SEEN YOU HERE BEFORE?

Register your speaker at www.jamaudio.com. Information about where you bought it and how you're using it is like gold for the people who make these speakers. Do them a solid, will ya?

CHARGE

What It Means

Low Battery
Charging
Ready (In Pair)
Pairing Mode
Connected
Low-Battery
BLUETOOTH® CONNECTION: IT'S A SETUP

You're probably only going to have to do this once, unless your device goes through a major update. Here's how it works:

1. Make sure your phone and speaker are connected through Bluetooth.
2. Answering and ending a call is the same: simply click the PLAY/PAUSE button on your Touch.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your Touch for three seconds to ignore the call.
4. If you're connecting to a computer, you may have some extra steps on that end. You'll have to get that information from the computer company.

Depending on your device you may be prompted to enter a pairing code. If prompted enter “0000” as the code.

Notes:
- If you turn on your Jam Touch but haven't started the party yet, it will automatically power off after 2 minutes of unpaired inactivity.
- Once you've paired, you can pause the party for 15 minutes or more and the Jam Touch will automatically shut off to preserve battery power.

COMING CLEAN

Use a soft, dry towel to clean off your speaker. Using water, harsh cleaners or anything else that may be harmful to the speaker can result in a malfunctioning device—a device that no longer makes any sound. However, there is no guarantee that interference will not occur in a particular installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
